Brett Stringer
Principal

April 2020

Congratulations and welcome into the South High Community! By now you will have received a letter from our district's student placement office indicating your placement into one of our academic programs – All Nations, Liberal Arts or Open.

We are including some important registration materials for your 9th grade classes. Also included is information about music auditions and placement, AVID program opportunities, and Project Lead the Way pre-engineering course work. Please look over these materials together in preparation for your registration with South.

Registration for next year's classes will happen online in the spring of 2020.

- **We will offer a powerpoint with information that would have been shared at the registration night as well as materials on our website to help with this process such as instructions, a grad grid and a link to a google course request form to complete.**
- **If you have questions, you can reach out to your School Counselor or staff members about Project Lead the Way (PLTW), AVID, Math and World Language Placement, fall sports and clubs. We are providing a contact list for your reference.**

If you are unable to complete this form online, you may print a copy of your Course Request Form to complete and take a picture of both sides to e-mail to renee.magney@mpls.k12.mn.us by Friday, May 29th.

Also included in this email and on our website you will find information about various co-curricular programs offered at South. We strongly encourage you to sign up for at least one of these offerings. Connecting to the school community through sports, clubs, theater, speech, and other activities can help make your transition to high school more enjoyable and successful!

We want you to have the best possible experience here at South. It is important for you to continue your hard work at middle school this year in order to be best prepared for next fall. If there is anything we can help you with between now and next August, please contact us at 612-668-4373.

We look forward to seeing you next fall!

Sincerely,

The South High Counseling Team
