

South High School 4-H Youth Teaching Youth Be a Teen-Teacher!

Would you like to earn school credit or community service hours in an after school club?

Are you interested in a career as a teacher, youth worker, counselor or coach?

Would you like to gain experience in public speaking and classroom management while fine-tuning your leadership skills and being a hero?

Our Teen-Teacher program offers fabulous opportunities to build your resume and connect you to the U of MN. Students in grades 9-12 instruct in teams at elementary schools within your district.

Teen teachers will teach 3 one-hour sessions of a character building class in an after school program at a Minneapolis elementary school. The lessons are very interactive and include fun activities, role play and discussion.
